

HACCP Awareness

Duration: 1 day

Cost: price on enquiry

This one-day course has been developed by Urban Training and is designed to give an introduction to HACCP giving candidates an understanding of the “how” and “why”. It is aimed at individuals who work “with it” rather than those who are implementing it.

Topics covered include:

- * Hazard Identification
- * Hazard Analysis
- * Risk Assessment
- * Critical Control Points
- * Monitoring and documentation
- * Verification.

Notes are provided to candidates to give additional support material.
